San Francisco, Cal., Nov. i.—The fall and winter race meeting of the New California Jockey Club will begin at the Oakland track to-morrow, and will continue uninterruptedly until spring. The season will be divided equally between the Oakland and Tanforan tracks, the horses to race at each track in monthly, instead of semimonthly periods, as has been the custom heretofore.

The stakes of the Jockey Club have been increased this year, both in number and value, and have filled well. The value of the purse and selling races will range from \$400 to \$500, the former to be the minimum of any event carded. The club members have decided to adopt the "no recall" flag system. Bill Provides for License of \$2,000 on Professioinal Diamonds -Other Measures.

A bill prescribing an annual license tax of \$2,000 on baseball grounds whereon the national game is played by professionals was introduced in the City Council yester-day afternoon by Mr. Newell. The bill proposes to advance the license tax from nothing per annum to \$2,000.

Circuses, Wild West exhibitions, side shows and similar performances given in inclosures are also included in Mr. Newell's bill. The present rate for circuses and menageries is \$300 per day, and \$50 per day for every day's exhibition after the first week. The provision in the amendatory bill is for a rate of \$500 per day, with no stipulation for the daily rate after the expiration of the first week.

The City Council unanimously adopted a resolution, submitted by Mr. Gibson, re-questing the City Counselor to state whether the city cannot compel steam railroads and steamboats to use smoke consumers. The statute declaring discharge of dense smoke into the open air to be a misde-mentor contains no provision concerning steam rallroads and steamboats, Mr. Gib-son hopes that Mr. Schnurmacher will be able to class locomotives and steamboats

Country and Algonquin Golf Clubs Will Play for Championship of St. Louis.

OTHER CLASS TO BE SETTLED.

Walker and M. McKittrick Will Play for Class B Championship and Potter and Kendrick for Class C Honors.

Stuart G. Stickney and Burt P. McKinnie will meet in the finals of the open golf tourney for the championship of St. Louis and The Republic Cup, which is emblematic of that honor, on the Country Club links, near Clayton, this afternoon. Mr. Stickney beat Ralph McKittrick yesterday 2 up and I to play. Mr. McKinnie had previously beaten Mr. Vickery 8 up and 6 to play, a tremendous beating.

Mr. Stickney and Mr. McKittrick played golf that was good for the links they were playing on. With a link as rough as those of the Country Club, good golf is out of the question, especially in tournament games, where the strain on the players is mmense. Strange as it may seem to the uninitiated, no game carries with it the strain that does golf. The greater the strain the greater the necessity for a good course. The intense heat of the summer rulned the local links by burning the grass away and leaving them bumpy and weedy. Hence golf this fall has been poor.

Messrs. McKittrick and Stickney are playing partners—that is to say, they have always been accustomed to playing together in practice. They have always been closely matched.

matched, one winning, now the other. Both are about equally long drivers and short players. Until the introduction of the rubber ball, Mr. McKittrick was the better putter, but, strange to say, Mr. Stickney, who was always a poor putter, became a good one with the new ball, while Mr. McKitrick was was a good with the new ball. good one with the new ball, while Mr. McKittrick, who was a good putter, became a poor one. Yesterday's game was a very even affair all the way. Both players rove to about the same mark, and the hole was generally a question of who was the better. or, rather the luckier, putter. The greens, like the rest of the course, were rough in the extreme, and it was more or less a case of luck in getting down in the holes.

Mr. Adams's Poor Showing.

As was pointed out in this paper, the play of contestants has, of course, improved immensely. The standard this season was easily one-third better than it was ast season—that is, the inferior condition of the links considered.

Last year's champion, Mr. Adams, made a poor showing, being beaten by Mr. Stickney in the first round. Mr. Adams was simply out of practice, his business interests making it impossible for him to play goif.

The leaders in the tournament, the brothers Stickney, McKinnie, Vickery and McKittrick, all owe their prominence to hard and patient practice. When less ardent players throw up their hands, appailed by the burned and iron-bound links, and found golf not only no pleasure, but a positive pain, these enthusiasts were ever playing and playing some more. No matter how hot it got or how red the links were, golf was golf to them. They owe their expertness to uncessing practice and to being fortunate in having an imagination lively enough to make them believe that they were playing golf when they really were only hanging a rubber hall over a brickyard.

To-morrow Messrs. Sticks y and McKinnie will play for the championship and The Republic Cup. Either will make a good and proper champion, and The Republic's wish is that the best man may win and hold the cup.

JEFFRIES IS BRIM **FULL OF CONFIDENCE.**

Says Ruhlin Will Tackle an Entirely Different Man This Time -Auxious to Meet Fitz.

REPUBLIC SPECIAL. Harbin Springs, Cal., Nov. 1.-Billy De-

laney is continually haunted with the fear that Jeffries may overtrain. Jeffries spent the greater portion of yesterday in his new-ly erected gymnasium and handball court, his exercise consisting mainly of handball and bag punching. After a hot sulphur bath in the afternoon and a brisk rub-down, Jef-fries weighed a shade less than 215 pounds. Some one remarked that Delaney would be mad when he heard that Jeffries was below 215 again. "I can't help that," said Jeffries, with a

grin. "I find that I vary from 212 to 218 pounds, according to the kind of day I put in. To tell the truth, the weight part of it does not cut much figure with me person ally. I am guided by my feelings entirely, and I could not feel any better than I do

"As long us I feel as I do I don't see that it matters much what I scale. At that, I expect I will be somewhere around the 220 notch when I enter the ring." Jeffries said he gathered from the news-papers that Rublin's training is progressing satisfactorily and that Madden's heavy weight was brimful of confidence with regard to the outcome of the championship

"That's the right way to feel," re-marked the champion. "I must own up to feeling pretty confident myself. I have plen-ty of respect for Ruhlin. He gave me a hard fight the last time we met, but he'll find an entirely different Jeffries in front of him this time."

Jeffries is rather miffed at the news that Sharkey is coming to the coast to challenge the winner, and that Fitzsimmons has made no definite statement as to what he intends doing.

"Sharkey's all right," said Jeffries. "He's a good, game fellow and a hard man to down. But Fitzsimmons is the man I want. He has had a lot to say about being doped when I took the championship from him, and he made a grand-stand play of challenging me at Coney Island after he defeated Sharkey lust year.

"Fitzsimmons has had lots of chances to meet me since then. I must say, though, that he does not act like a fellow who is anxious for a go with me. It really looks to me as if he is holding off until he sees who wins this next fight. I suppose if Ruhlin licks me Fitzsimmons will challenge him without a moment's delay, but I'm thinking that if I am still champion on the morning of the 19th of November, Fitzsimmons will be as undecided on the subject of fighting as he is now."

VARICOCEL

Its Causes, Effects and Cure.

Varicocele is a weakened and broken-down condition of the spermatic veins and sexual circulation, due in the great majority of cases to sexual indiscretions—early abuse and later excesses. It makes no difference what the cause, be it strain, injury or abuse, once the disease is developed, it is of the utmost importance that it be cured without delay, for it will never cure itself, but on the contrary, is ever becoming more aggravated, and in time will break down the strongest constitution and fill your whole future with gloom, unhappiness and despair, That Varicocele is one of the most serious and treacherous diseases afflicting mankind has been proven beyond all doubt. If neglected it will undermine the physical strength, derange and depress the mental faculties, rack the nervous system and ultimately produce a complete loss of sexual power. The sufferer realizes that some unseen hand is dragking him down, that there is a constant drain on his vitality, and he knows in his own mind that he is but half the man he was before this disease stole upon him. He broods over his troubles in silence, loses confidence in himself, becomes morose, irritable and despondent, commit suicide to escape an existence which promises nothing but suffering, misery and woe.
